### **Environmentally Hardened Design**

With the **IP40** metal industrial case which provides a high level of immunity against electromagnetic interference and heavy electrical surges, Being able to operate under the temperature range from **-40 to 85 degrees C**, the IES7310-2FE1F-DC can be placed in almost any difficult environment.

# Working Temperature -10'0 S5-0 Wide temperature design work well in different harsh environment

### Dual Power input for High Availability Network

Featureing a strong dual power input system with wide-ranging voltages (12V~54V DC) incorporated into customer's automation network to enhance system reliability and uptime which make the installation more flexible and convenient.

### Surge Protection Design

provides contact discharge of  $\pm 8$ KV DC and air discharge of  $\pm 15$ KV DC for Ethernet ESD protection. It also supports  $\pm 6$ KV surge immunity to improve product stability and protects users' networks from devastating ESD attacks, making sure the flow of operation does not fluctuate.

### **Gigabit SFP Uplink Port**

With one SFP module slot available, the SFP uplink port is ideal for connecting the switch to the network's backbone, providing more than enough bandwidth and stability for ultra high speed data transferring, Beside the SFP can transmitte the date with Max 100Km distance with more economic solution
